DISINFECTING DETERGENT

Disinfectant, cleaner, and sanitizer, all in one

EPA Reg. No. 10324-155-84008

Disinfecting Detergent is registered with the US EPA as effective against SARS-CoV-2, the novel coronavirus that causes the disease COVID-19.

Easy to use, **Disinfecting Detergent** is a three-in-one solution that disinfects, cleans, and sanitizes a wide range of surfaces. Available in perfectly portioned packets, this functional disinfecting cleaner offers convenience and cost savings.

USE IN FLOOR SCRUBBERS

Disinfectant Detergent Works Great in Floor Scrubbers Too!

To disinfect floors, first clean with a general purpose floor cleaner such as a properly diluted mixture of 5 oz pouch of **MOR-GREEN Super-Concentrate Cleaner Degreaser**, then refill the scrubber with water and enough pouches of Biosolutions **Disinfectant Detergent** to create a 1 oz per gallon mix. For example, a 30 gallon tank requires 6 of the 5 oz pouches to yield RTU disinfectant.
